

Summary

UI/UX Designer with 4 years of experience delivering user-centered design solutions across enterprise B2B platforms and consumer applications. At Ericsson, led UX strategy for a global content management platform, reducing task completion time by 70% through iterative usability testing and WCAG-compliant design. Experienced in driving end-to-end design processes from user research and information architecture to interaction design, design systems, and developer handoff, collaborating with cross-functional Agile teams to deliver scalable and accessible products.

Professional Skills

Design Skills- User Research, Usability Testing, Heuristic Evaluation, A/B Testing, User Journey Mapping, Competitive Analysis, Design Thinking, User Personas, Wireframing, Prototyping, Interaction Design, Visual Design, Information Architecture, Responsive Design, Auto-layout, WCAG Accessibility, Design Systems, Component Design, SEO, AEM

Toolkit- Figma, Adobe XD, Sketch, Jira, Adobe Illustrator, Miro, Midjourney, Firefly, Zeplin / Handoff

Front-End- HTML and CSS for design to development handoff

Experience

Self-employed/Freelance UI/UX Consultant Oct 2025 - Present

- Architected end-to-end UX/UI for **GyanGram** (UPSC Android app) within a 4-week sprint, designing a **continuous-scroll, assessment-integrated interface to reduce cognitive load**. Currently managing **Google Play Closed Beta** and running iterative feedback loops to optimize navigation pre-launch.
- Co-led design and delivery of a **Crickrida**, real-time cricket analytics dashboard with 10+ modules, validated with 8 users, **achieving a 92% task completion rate**, and improving information hierarchy for faster stat lookup.
- Acted as sole design owner, bridging UX and engineering, defining component-level UI specs and API payload contracts directly with developers to eliminate ambiguity and enable rework-free implementation across both products.
- Worked on **SEO and AEM** workflows to improve content discoverability and scalability.

User Experience Designer | **Ericsson** | Noida Jun 2023 - Sep 2025

- Architected UX enhancements for the **global CDMMP platform**, driving systemic workflow optimizations that reduced content editor task completion time by 70%.
- Conceptualized and deployed a multi-asset aggregation feature that **cut average task duration from 45 minutes to 12 minutes**, saving cross-functional teams hours of repetitive manual effort weekly.
- Developed and delivered interactive Figma prototypes and established comprehensive UI style guidelines based on evaluative usability testing, ensuring accessibility and visual consistency across enterprise platforms.

User Interface Designer | **Hind Academy** | Indore Feb 2022 - Jun 2023

- Conducted user research, synthesized findings into personas and journey maps, and translated insights directly into wireframes and interactive Figma prototypes, reducing design iteration cycles by streamlining early-stage decision-making.
- Established visual design language and reusable component patterns, ensuring consistency across all product touchpoints and laying the groundwork for a scalable design system.

Project

- Sargam (AI Music App)** - Solo 2-week project; designed a mood-based discovery experience across 12+ screens, covering research, information architecture, and final high-fidelity UI.
- FlexiSpace (Workplace OS)** - Solo product design project; conceived and designed a workplace operating system spanning 5 core flows, an **admin panel**, and a multi-surface design system, from initial research and product strategy through high-fidelity interactive prototype.

Education

Indian Institute of Technology, Roorkee | Post-Graduation Certification in UI / UX Design Sep 2024 - Aug 2025
